

Registration Fee Concession for Selected Students, Faculty & Young Engineers: Geotech Asia 2025 (7-10, Oct 2025, Goa)

Thanks to the generous support of our esteemed sponsor, we are pleased to announce that the upcoming Geotech Asia 2025 International Conference (7–10 October, Goa) will offer **up to 50% concession** in the registration fee to selected students, faculty members, and young engineers. This concession is expected to benefit about 60-70 participants, based on the following order of preference:

Priority 1: Students and faculty from non-centrally funded institutes

Priority 2: Students and faculty from centrally funded institutes

Priority 3: Young engineers

- Applicants must be members of the Indian Geotechnical Society and must have an accepted paper at the conference. Submissions under review, revision or in the submission process will be considered only after final acceptance is received from the Review Committee. This scheme is also applicable to participants who have already registered but faced difficulty in arranging funds.
- A maximum of two authors per accepted paper may apply, provided one of them is a student (otherwise only one author per paper under regular category is eligible). The selection process will conclude by the end of July.

Important Note:

As a special consideration under this newly introduced initiative:

- Selected applicants may pay the balance registration fee, originally due by 22 June 2025, by end of July or once their selection is confirmed.
- Applicants not selected for the concession, but with accepted papers, may still register at pre-22/06/25 rates even after the deadline, until their results are announced.
- For authors not applying for the concession, the 22 June early bird deadline remains unchanged.

Required Document:

Applicants must submit a declaration from their Head of Department or Institute, stating the maximum financial support available to them. Applications without this document will not be considered. **The declaration must be exactly as per the attached format.**

We encourage all eligible authors to take advantage of this opportunity and submit their applications promptly. Final accepted papers with completed author registrations will be included in Volume 2 of the conference proceedings. Volume 1 (currently under publication) included 216 papers, and Volume 2 is expected to surpass this number.

All applications must be submitted via the following link:
